## Some of my real time works

### Advanced student management and e-learning system
This is my best project yet and it includes more than 15 main features including an online quiz, documentation and video tutorials for each course, add and drop courses, registration, grade and assessment result, automatic grade, average, and total calculation with the integration of Paypal and Stripe payment methods, etc... this is done 100% by me

### Fidele Books
is a platform that allows you to connect with other like-minded readers, swap books, discuss, comment, and review books.

### aco-ethiopia
This one is an intermediate website more focus on the UI(user interface)
